PROFESSIONAL SUMMARY

iOS Developer with 4+ years of experience building production applications using Swift, SwiftUI, and cloud infrastructure (AWS). Independently shipped two iOS apps to the App Store (Chrono and Tiny Goods), and contributed to enterprise apps serving 2,000+ daily users with proven impact reducing setup time by 85%+ and bundle size by 50% through cloud automation.

EDUCATION

Universidade Federal do Rio Grande do Sul
Bachelor of Science in Computer Science

Porto Alegre, RS
2019 – 2026 (*Expected*)

EXPERIENCE

Prêt-à-Template
iOS Developer

Porto Alegre, RS
Oct. 2023 – Present

- Designed and shipped a CloudKit-backed social feed in Prêt-à-Makeup using SwiftUI and MVVM, introducing a new engagement surface that drove 3,400+ interactions from 1,200+ unique users in its first 4 weeks
- Built AWS content delivery pipeline (S3, Lambda, CloudFront, API Gateway) reducing app setup time by 85%+ and enabling 2,000+ daily users to access content in under one minute
- Architected CI/CD pipeline with Xcode Cloud, automating iOS releases and enabling product team to test builds independently without developer intervention
- Developed internal content management platform integrating CloudKit and AWS across 2 production apps, reducing bundled content by 50% through on-demand delivery

RELEASED APPS ON APP STORE

Chrono: Sleep Tracker

2026

SwiftUI, HealthKit, App Intents, StoreKit 2

- Shipped a privacy-first sleep tracker on the App Store using SwiftUI and MVVM, leveraging the iOS 18 Sleep Focus Filter (App Intents) and HealthKit to track sleep without backend persistence
- Built a gamified sleep tracker around 3 chronotype companions (Deer, Bear, Panther) whose health evolves nightly with the user's sleep score
- Monetized via StoreKit 2 + RevenueCat, with product decisions driven by PostHog analytics through MCP since day one, localized in 11 languages

Tiny Goods: Coloring Books

2026

SwiftUI, PencilKit, SwiftData, StoreKit 2

- Designed and launched a cozy iOS coloring app on the App Store using SwiftUI and PencilKit
- Designed the app UI around a "real card" metaphor: a rotatable PencilKit canvas, wavy-bordered pages, and an offline-first SwiftData gallery of washi-taped polaroids instead of grid thumbnails
- Monetized via StoreKit 2 + RevenueCat and AdMob (interstitial + rewarded), with product decisions driven by PostHog analytics through MCP since day one, localized in 11 languages

EARLIER EXPERIENCE

Liber (Rotation Program - Part 2)

Remote

DevOps and Back-End Intern

Aug. 2022 – Jun. 2023

- Built backend services in Go using Factory and Service patterns, integrating PostgreSQL, RabbitMQ, and CSV processing pipelines
- Provisioned infrastructure as code using Terraform and AWS (Lambda, ECS, Secrets Manager) and designed GitLab CI/CD pipelines as dedicated DevOps engineer for the team
- Implemented comprehensive testing suite across Python and Go services, including unit and end-to-end tests, improving code coverage by ~25%

Bava (Rotation Program - Part 1)

Remote

DevOps Intern

Feb. 2022 – Aug. 2022

- Built infrastructure automation workflows using Terraform and AWS (S3, ECS, Lambda, IAM, Secrets Manager), deploying resources as code across multiple environments
- Built Datadog dashboards to monitor service health, track errors, and analyze logs across production systems
- Maintained and improved GitLab CI/CD pipelines, implementing linting automation and enhancing delivery workflows

UFRGS - CNPq Research Fellow

Porto Alegre, RS

Undergraduate Research Fellow

Sep. 2021 – Aug. 2022

- Developed full-stack MVP using Flutter and PostgreSQL as part of CNPq-funded entrepreneurship research scholarship
- Conducted field research with 117+ survey responses to validate product assumptions and inform development decisions

TECHNICAL SKILLS

Mobile: Swift, SwiftUI, UIKit, CloudKit, XCTest, XCUITest

Cloud & Backend: AWS (Lambda, S3, CloudFront, API Gateway, Secrets Manager, ECS, IAM), Go, Python

DevOps & Infrastructure: Terraform, Docker, Xcode Cloud

Databases Messaging: PostgreSQL, RabbitMQ

Tools: Posthog, Datadog

Languages: Portuguese (Native), English (Advanced)
